Section 1: Hands-On Demonstration

Part 1: Identify Forensic Evidence in an iOS Data Case

8. Make a screen capture showing the contents of the Properties pane.

Conducting Forensic Investigations on Mobile Devices (4e)

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 08

11. Make a screen capture showing the contents of the Contacts grid.

14. Make a screen capture showing the contents of the Calendar grid.

Conducting Forensic Investigations on Mobile Devices (4e)

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 08

20. Make a screen capture showing the contents of the Messages grid.

24. Make a screen capture showing the contents of the Notes grid.

34. Make a screen capture showing at least two car pictures in the Thumbnail View.

44. Make a screen capture showing the Table of contents in the investigative report.

Part 2: Compare iOS Data Cases

10. Make a screen capture showing the difference in data case properties.

15. Make a screen capture showing the additional note in the newer data case.

Section 2: Applied Learning

Part 1: Identify Forensic Evidence in Android User Data

7. Make a screen capture showing the Device Information.

9. Make a screen capture showing the ICE Contacts.

Conducting Forensic Investigations on Mobile Devices (4e)

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 08

12. Make a screen capture showing the Contact Email Accounts.

15. Make a screen capture showing the Installed Applications.

Conducting Forensic Investigations on Mobile Devices (4e)

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 08

19. Make a screen capture showing the recovered contact information from the Android phone.

Part 2: Identify Forensic Evidence in Android Application Data

4. Make a screen capture showing the User Activity Timeline between 9:17:47 AM and 9:24:51 AM on 6/2/2021.

Conducting Forensic Investigations on Mobile Devices (4e)

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 08

7. Make a screen capture showing the contents of the Own Whispers grid.

10. Make a screen capture showing the contents of the History grid.

Conducting Forensic Investigations on Mobile Devices (4e)

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 08

17. Make a screen capture showing the contents of the list_item 1-5 table.

20. Make a screen capture showing the Keep Notes account owner.

23. Make a screen capture showing the Investigative Report's Table of Contents.

Section 3: Challenge and Analysis

Part 1: Research Report Writing for Digital Forensics

Prepare a brief summary of the appropriate structure and best practices for preparing a digital forensics report.

Overview/Case Summary: This sections includes the basic summary about the purpose behind getting involved with the examination of the particular case and collecting the evidence using the images of the devices used. Moreover, it includes the information about how the case was initialized and the role of the examiner in the analysis of the case.

Forensic Acquisition & Exam Preparation:

This section consists information about steps and process involved in finding the digital evidences and collecting and preserving it also document any other extra steps taken should be noted. Moreover, main role and the tasks conducted by the examiner in the case needs to be documented.

Findings and Report (Forensic Analysis): This is the most detailed section of the investigation that includes all artifacts that has been found during your analysis relating to the case.

Conclusion: This section summarize the findings from the forensic evidence collected and presented in the report. It explains the significance of a detailed and thorough examination and reporting of factual evidence, making use of screenshots, links etc.

Part 2: Draft a Forensic Report

Case Summary

The investigation is initiated by the Madison Police Department for examining an organized car theft operation involving two suspects, Bonnie and Clyde (code names). Their mobile phones both iOS and Android device was used for part of the investigation. The purpose of the investigation is to analyze the data retrieved from these images to identify any evidence related to the car thefts.

Images used: Lab_Android_Acquisition_06_02_2021_17-52-55 iPhone_Acquisition
08-12-2021_11-40-13 iPhone_Acquisition 08-12-2021_11-55-18

Findings and Analysis

Findings from iPhone: Device Identification: iPhone Series 12, Version 14.4, Serial Number: F4GZNMQ4N739 Ownership: Owned by Clyde Evidence: Analysis of the iPhones files showcased several number of car images along with their license plate numbers. Suspicious Activities: Car images with their license plate number provides an indication of suspects involvement in theft of the car.

Android Device: Device Identification: Serial Number: HSMDU17A21002751 and is equipped with dual SIM capabilities.

Ownership: Owned by Bonnie, as per the contact lists. Notes: Android devices was equipped with notes including lists of stolen cars and their license plate numbers, that was changed from 657 BEE to 7CAJ533.

Applications: Whisper, eBay Motor, an anonymous chatting app, these apps are used for selling goods like stolen cars. Activity Timeline of the User: Analysis of the timeline between 9:17:47 and 9:24:51 on 06/02/2021 indicates things like attempts to hide online activities, use of VPN unlimited and whisper app.

Owners info: From the notes it is revealed that the email address of the owner is julriley1990@gmail.com suggesting her real name as Jul Riley.

Conclusion

Detailed forensic examination of seized iPhone and Android phones revealed important evidence implicating suspects Bonnie and Clyde in organized auto theft. While the Android phone identified as belonging to Bonnie contained notes regarding stolen cars, suspicious apps that may provide evidence of further dealing in the merchandise, pictures on the iPhone showcased vehicles along with the license plate numbers of the stolen cars, including the use of VPNs and messaging applications that promote anonymity. This has, hence, served to increase evidence against the suspects, where necessary evidence was provided to continue the investigation.
