100%

Report Generated: Thursday, October 3, 2024 at 6:34 PM

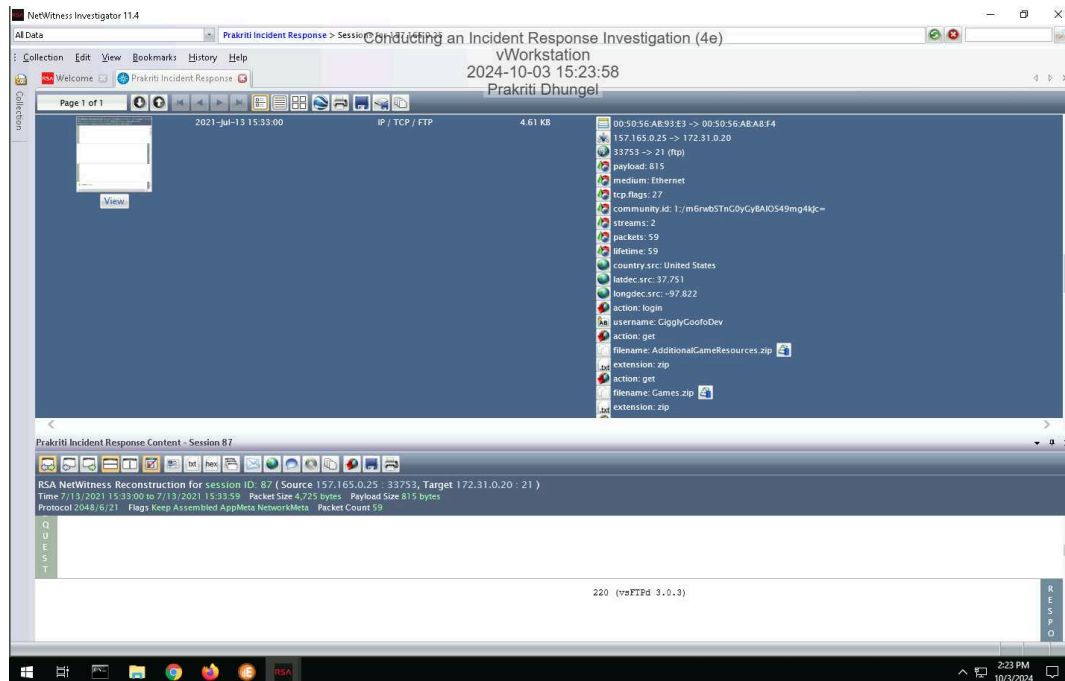

Section 1: Hands-On Demonstration

Part 1: Analyze a PCAP File for Forensic Evidence

10. Make a screen capture showing the Time Graph.

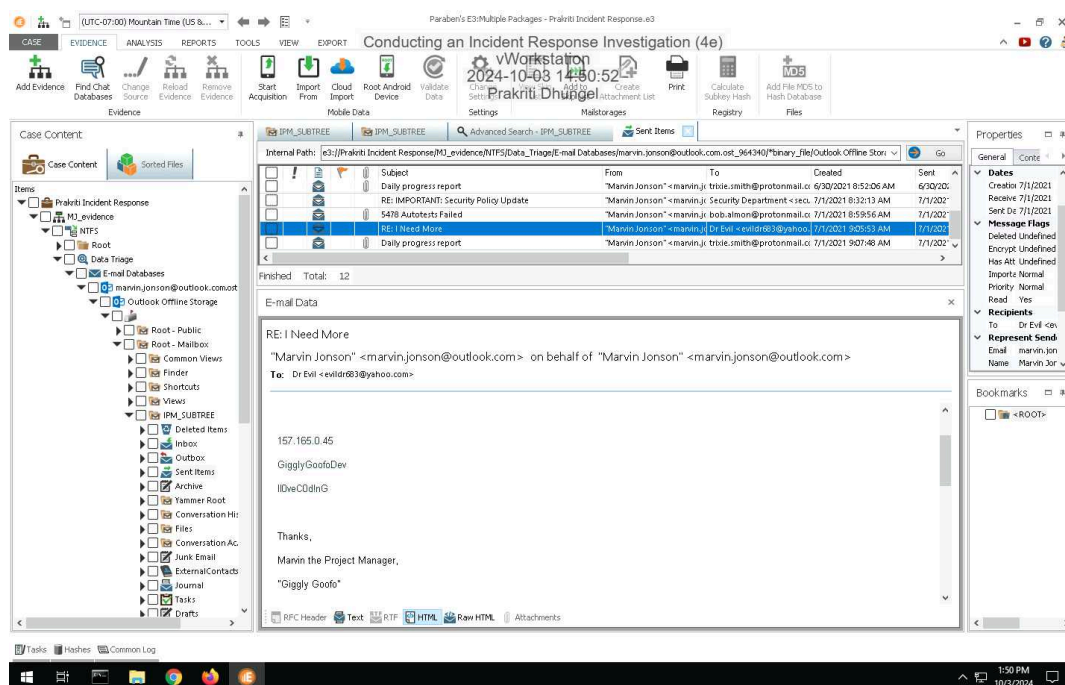

16. Make a screen capture showing the details of the 2021-Jul-13 15:33:00 session.

Part 2: Analyze a Disk Image for Forensic Evidence

18. Make a screen capture showing the email containing FTP credentials and the associated timestamps.

Part 3: Prepare an Incident Response Report

Date

Insert current date here.

10/3/2024

Incident Priority

Define this incident as High, Medium, Low, or Other.

High

Incident Type

Include all that apply: Compromised System, Compromised User Credentials, Network Attack (e.g., DoS), Malware (e.g. virus, worm, trojan), Reconnaissance (e.g. scanning, sniffing), Lost Equipment/Theft, Physical Break-in, Social Engineering, Law Enforcement Request, Policy Violation, Unknown/Other.

Compromised User Credentials

Incident Timeline

Define the following: Date and time when the incident was discovered, Date and time when the incident was reported, and Date and time when the incident occurred, as well as any other relevant timeline details.

Incident Discovery Time: July 31, 2021 at 10:30 AM Incident Reporting Time: July 31, 2021 at 10:40 AM
Incident Occurrence Time: July 13, 2021 at 3:33:00 PM

Incident Scope

Define the following: Estimated quantity of systems affected, estimated quantity of users affected, third parties involved or affected, as well as any other relevant scoping information.

Estimated quantity of system affected: one system is affected as Ip address 157.165.0.25 established 7 sessions with same destination Ip address 172.31.0.20. Estimated quantity of user affected: one, who shared his credentials using email. Third parties involved or affected: Third party with Ip address 157.165.0.25 Intellectual property breach has likely occurred due to sharing of sensitive organization data.

Conducting an Incident Response Investigation (4e)

Digital Forensics, Investigation, and Response, Fourth Edition - Lab 04

Systems Affected by the Incident

Define the following: Attack sources (e.g., IP address, port), attack destinations (e.g., IP address, port), IP addresses of the affected systems, primary functions of the affected systems (e.g., web server, domain controller).

Attack Source: IP address 157.165.0.20, port 17177 Destination: 172.31.0.20, port 10094 Primary function of the affected system - File Transfer Protocol (FTP) server suspected with transfer of two files.

Users Affected by the Incident

Define the following: Names and job titles of the affected users.

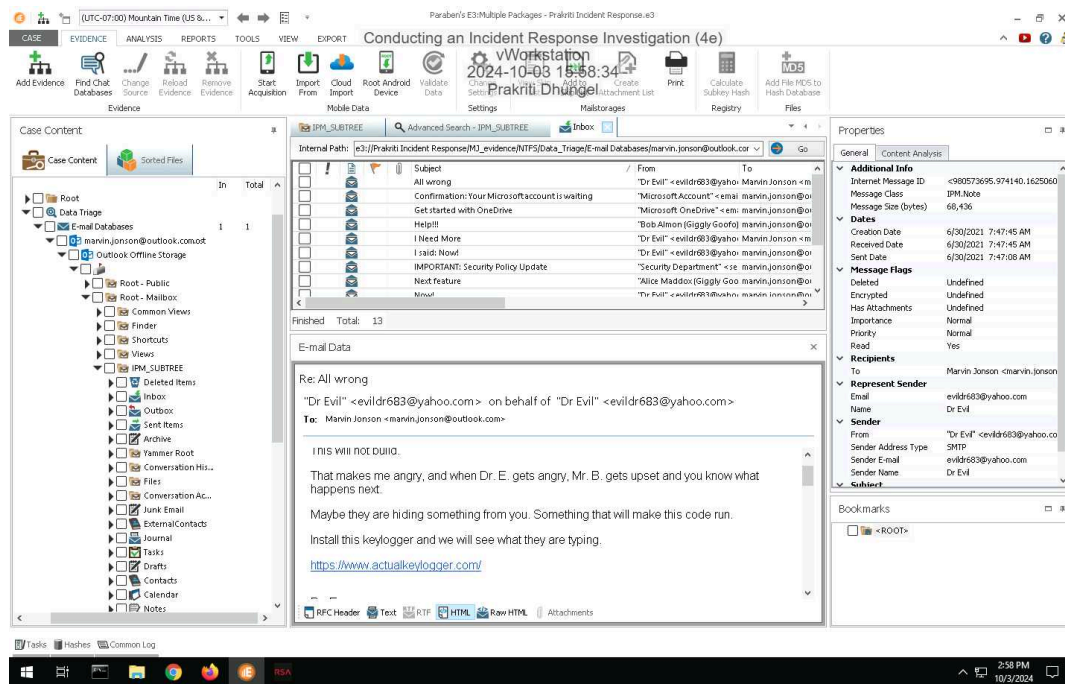

Name: Marvin Jonson

Job: Project Manager

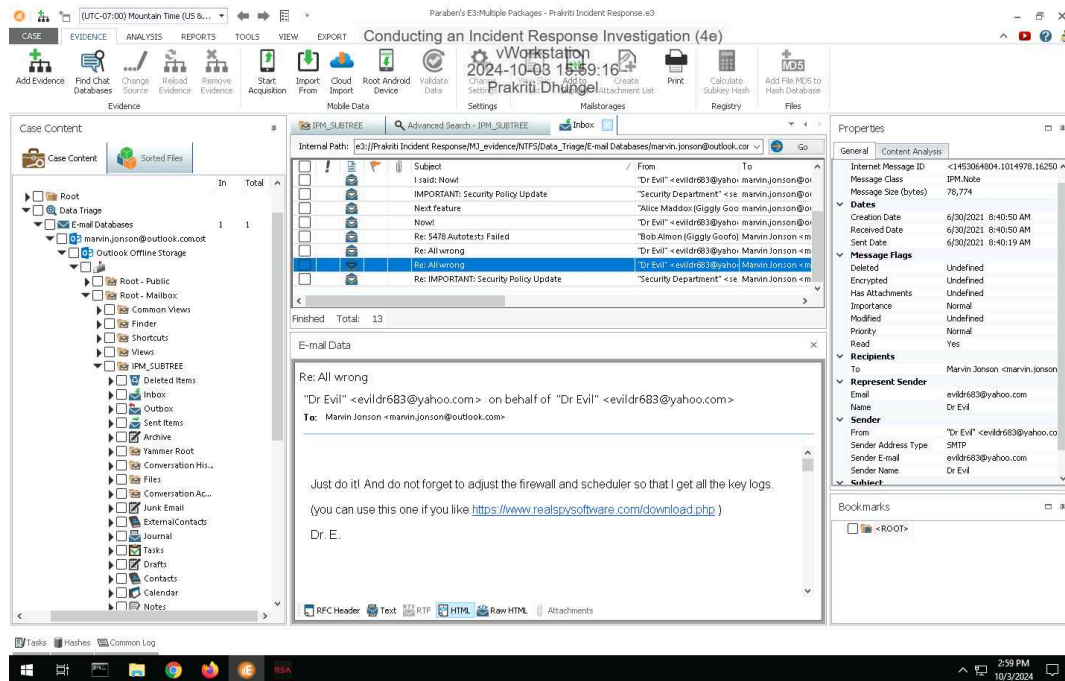

Section 2: Applied Learning

Part 1: Identify Additional Email Evidence

10. Make a screen capture showing the email from Dr. Evil demanding Marvin install a keylogger.

11. **Make a screen capture** showing the **email from Dr. Evil** reminding Marvin to update the firewall and scheduler.

Part 2: Identify Evidence of Spyware

5. **Document** the Author and Date values associated with the scheduled keylogger task.

Author: Marvin Jonson Date: 2021-06-30

7. **Document** the port used for inbound connections to the keylogger and the name and location of the keylogger executable.

Port used for inbound connections to the keylogger: 666. Name and location of the keylogger executable: c:\ProgramData\SecurityMonitor\akl.exe

Incident Priority

Has the incident priority changed? If so, define the new priority. Otherwise, state that it is unchanged.

It is unchanged.

Incident Type

Has the incident type changed? If so, define any new incident type categories that apply. Otherwise, state that it is unchanged.

Incident includes compromised system along with compromised user credentials because key logger was installed.

Incident Timeline

Has the incident timeline changed? If so, define any new events or revisions in the timeline. Otherwise, state that it is unchanged.

Incident Occurrence time has changed to June 30,2021 at 9:10:20 PM prepones to keylogger use timing

Incident Scope

Has the incident scope changed? If so, define any new scoping information. Otherwise, state that it is unchanged.

Since the keylogger was installed in a system. I assume more than one user must have been affected.

Systems Affected by the Incident

Has the list of systems affected changed? If so, define any new systems or new information. Otherwise, state that it is unchanged.

The number of systems affected has increased as well due to the installation of the keylogger.

Users Affected by the Incident

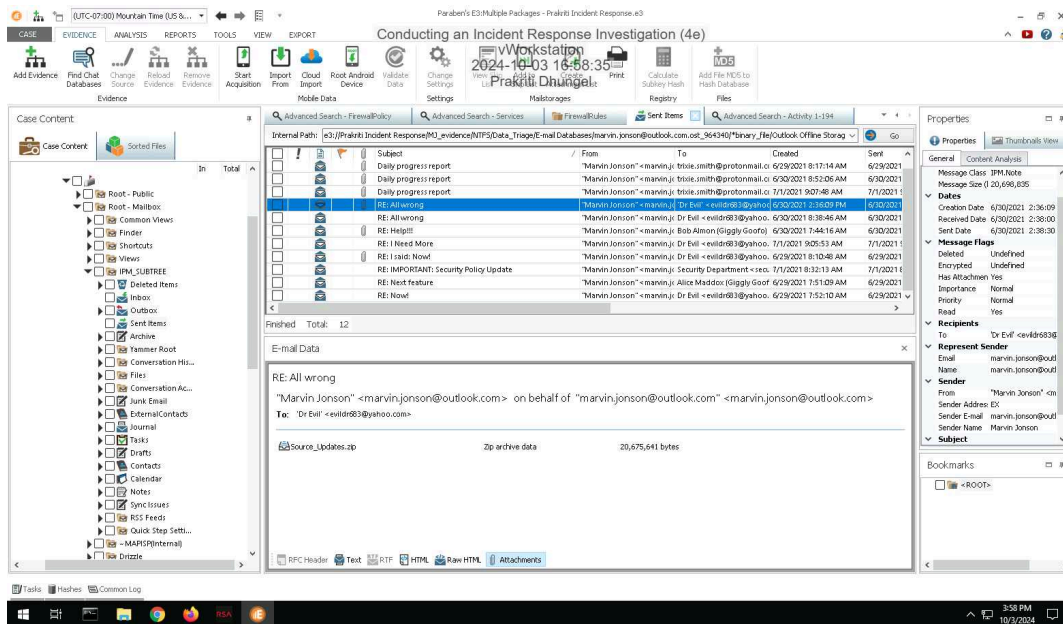

Has the list of users affected changed? If so, define any new users or new information. Otherwise, state that it is unchanged.

Marvin has been the affected user from the beginning, however, due to the keylogger installation in a system, other users might also have been affected.

Section 3: Challenge and Analysis

Part 1: Identify Additional Evidence of Data Exfiltration

Make a screen capture showing an exfiltrated file in Marvin's Outlook database.

Part 2: Identify Additional Evidence of Spyware

Make a screen capture showing the email with instructions for installing additional spyware.
